

BLANC FINE™ NA industrial sodium sulfide**NA - 52**

BLANC FINE™ NA industrial sodium sulfide is a type of mixture with different water of crystallization and contains impurities. It is pink, brown, earthy yellow, etc in color and performs well in absorption of moisture. It solutes in water easily and ethanol slightly but is not soluble in ether. It is poisonous and corrosive.

项 目	BLANC FINE™ NA - 52
Sodium sulfide (Na ₂ S)	≥52%
Water insolubles	≤0.6%
Iron (Fe)	≤0.15%
Sodium sulfite (Na ₂ SO ₃)	--
Sodium carbonate (Na ₂ CO ₃)	≤4.0%
Sodium thiosulfate (Na ₂ S ₂ O ₃)	--
